PROPOSITIONS

DE LA COMMISSION "LANGUES POPULAIRES"

Le problème est un problème de fond. La solution ne peut pas se satisfaire d'un nombre arrêté de mesures. Il s'agit de fonder de nouvelles perspectives et d'entamer concrètement un processus. Ceci n'exclut pas, bien au contraire, que des dispositions soient prises rapidement. Ces dispositions doivent être l'illustration d'une volonté politique.

Sur le fond, il s'agit

- de mettre fin à la marginalisation de la culture du peuple algérien, donc de définir la culture nationale en fonction de la culture populaire dans toute sa diversité. Ceci implique la reconnaissance institutionnelle des langues du peuple algérien (Arabe algérien et Tamazight) en tant que langues nationales.

- de donner les moyens publics de développement et d'expression de la culture algérienne. Le développement suppose réappropriation, enrichissement et diffusion.

Concrètement, la mise en pratique de ces principes est liée à deux conditions : d'un côté la suppression des entraves administratives, des tabous, des pratiques bureaucratiques répressives de tout ordre, et de l'autre la disposition d'un certain nombre de moyens matériels et humains. Concernant ce dernier point on peut, sans que cette liste soit exhaustive, citer quelques domaines d'application.

1) Mass-medias

- Emissions radiophoniques. Donner aux chaînes I et II les moyens

matériels nécessaires à leur plein épanouissement.

- Télévision. Dans un premier temps aménager des heures régulières d'émission en Tamazight et en Arabe algérien. Envisager dès maintenant la création à terme d'une deuxième chaîne berbérophone.

- Presse. Prendre en considération la possibilité d'organes de formation et d'information en Tamazight et en Arabe algérien dès maintenant

2) Activités culturelles

- Théâtre. Donner les moyens matériels pour la création de troupes jouant en Tamazight et en Arabe algérien.

- Cinéma. Prendre en charge la réalisation de films en Tamazight et en Arabe algérien. Banaliser la pratique de la double version (Arabe, Tamazight) pour tous les films algériens.

- Il en va naturellement de même pour toutes les autres activités culturelles, telles que les conférences, les spectacles de variété, les semaines culturelles, etc.

3) Edition

La SNED doit non seulement importer ordinairement les publications ayant trait au berbère et à l'arabe algérien, qu'elle refuse à l'heure actuelle systématiquement de faire entrer, mais aussi éditer des oeuvres en berbère et en arabe algérien. Il convient de procéder dès maintenant à la création d'une ou de deux sections spécialement destinées à cet emploi.

4) Enseignement

Le principe pédagogique selon lequel un enfant doit être enseigné d'abord dans la langue qu'il utilise dans la vie courante est universellement reconnu. Il faut commencer à préparer les conditions de mise en pratique de ce principe.

RAPPORT DE SYNTHESE

Le mouvement de Tizi-Ouzou du printemps 1980, dont les répercussions ont secoué tout le pays a soulevé un problème d'importance dont les plus profondes motivations peuvent se résumer comme suit :

- la recherche de l'identité algérienne effective ;
- la volonté de promouvoir les deux langues de la nation : Tamazight et Arabe algérien ;
- la soif de la culture ;
- le droit à la libre expression.

L'objet de ce séminaire est avant tout de poser, une fois de plus, clairement le problème de la culture en Algérie, afin de dépasser les fausses accusations dont la presse nationale notamment s'est encore récemment fait l'écho, et dont les propos incendiaires ont failli conduire à l'irréparable.

La volonté de dénaturation et de régionalisation d'un problème qui concerne tout le peuple algérien - même si une partie le vit plus intensément qu'une autre - a révélé du même coup les effets dramatiques que peut engendrer une information monopolisée par l'irresponsabilité, le sectarisme et l'arbitraire.

Le Séminaire de Yakouren ne fait qu'engager le dialogue en levant les tabous qui ont jusqu'à présent empêché tout débat démocratique sur la question culturelle. Nous espérons que la discussion du dossier culturel promise par le Président de la République sera réellement populaire, et que les autorités tiendront compte du point de vue de la population.
